OVERVIEW.

Under the same ownership since new and built in steel and aluminium, JAFE TICA presents in excellent condition. Standing apart from most of her competitors in this size range, she also boasts a transatlantic range of 3,100nm – ideal for an adventurous owner.

The largest yacht built by Turkey's Dragos Yachts, JAFE TICA represents a perfect harmony of innovation, design, and quality with sophisticated exterior and interior design. Excellent guest spaces include a spacious flybridge with jacuzzi and cosy sun pads, and a generous al fresco dining area on the main deck aft.

JAFE TICA has comfortable accommodation for up to 12 guests across five cabins, including a full beam master on the main deck. As well as this, she has accommodation for five crew members, including the ship's captain.

Powered by twin MTU engines, JAFE TICA reaches a top speed of 15 knots. Originally built RINA classed and charter compliant, she could present a great opportunity for a commercially minded buyer.

Key features
