OVERVIEW.

LUMIR is a 36.8m (120.7ft) yacht crafted by the iconic Dutch shipyard Heesen in 2005. She benefited from an extensive refit in 2013, followed by a continuous programme of major upgrades and works carried out under her current ownership between 2022 and 2026. Built in aluminium and showcasing Heesen's renowned expertise, she features exterior styling and naval architecture by the shipyard's in-house team, complemented by an elegant interior by Omega Architects.

Her profile carries all the hallmarks of Omega Architects' design language – clean, sporty lines, expansive deck spaces, and large windows that bathe the interior in natural light. LUMIR was conceived to deliver both exhilarating speed and uncompromising comfort, blending luxury and performance in perfect harmony.

A true high-performance yacht, LUMIR is powered by twin 3,650hp MTU diesel engines. Her lightweight aluminium hull enables impressive speeds, reaching up to 31 knots, with a comfortable cruising speed of around 26 knots. The result is a fast, sporty, and stable ride that appeals to owners who value both excitement and efficiency on the water.

Her outdoor living spaces are among her greatest highlights. The expansive flybridge is designed for effortless entertaining, featuring a fully equipped bar and a jacuzzi positioned to deliver sweeping ocean or harbour views. Numerous lounging and dining areas across her decks create inviting spots to sunbathe, gather, or enjoy relaxed al fresco dining at any time of day. Inside, the main saloon offers a warm and sophisticated atmosphere, with plush seating, a formal dining area, and a striking back-lit poker table – perfect for lively evenings and memorable social moments.

LUMIR accommodates up to 10 guests across four appointed cabins, including a full-beam master suite, two generous VIP cabins, and a twin cabin with additional bunks. The interior layout is designed to offer both privacy and comfort, making her ideal for families or groups of friends. Her sun deck is the heart of the yacht's outdoor lifestyle, featuring a large jacuzzi, ample loungers, shaded dining, and generous open spaces designed for relaxation and entertainment.

Key features

Northern European pedigree

Fast semi displacement yacht with maximum speeds of 31 knots

Accommodation for 10 guests in four cabins

Contemporary interior conceived by Omega Architects

Tender garage off the swim platform

Upgraded with zero-speed stabilisers by the current owner, delivering exceptional comfort by reducing roll both at anchor and underway
