OVERVIEW.

Discover PROJECT LIFE, the product of a world-class collaboration between Burgess, Benetti, Espen Øino International, and Zuretti Design. At 85m (278.1ft), this revolutionary yacht brings together years of experience garnered through multiple award-winning builds. Every detail, from engineering logistics to design aesthetics, has been scrutinised and refined. Her foundation is set for speed and confidence, while you retain the freedom to customise layouts, materials, and features. Plus, she's equipped with the latest innovations to reduce environmental impact, including a highly efficient hull, diesel-electric propulsion capable of using HVO biofuel, integrated solar panels for energy generation, and an advanced, low-energy HVAC system. These features collectively reduce emissions, energy consumption, and reliance on traditional fuel sources, demonstrating a holistic approach to sustainable yachting.

Interiors by Zuretti use flowing curves, floor-to-ceiling glass, and contemporary materials to create an elegant, welcoming atmosphere that keeps the ocean front and centre. Expansive decks blur indoors and out for true lifestyle versatility, with lounges and dining spaces that give you the flexibility to host intimate dinners and large parties where all your guests can enjoy the water-level panoramic view.

PROJECT LIFE has accommodation for 14 guests in seven cabins. The star of the show, however, is her expansive master cabin on the upper deck. With access to a private deck forward (a haven for sunrise coffee and endless horizon view) plus an office, his and hers baths, bedroom with lounge seating, and an additional multi-purpose room, you'll truly be in paradise.

The remaining guest cabins on board PROJECT LIFE can be found on the main deck, with two twins, two doubles, and the potential for an additional VIP cabin with a double bed and twin sofa beds, making her ideal for multi-generational cruising.

From the main deck pool surrounded by sunpads to the sun deck with its jacuzzi and shaded lounge, lifestyle spaces on board PROJECT LIFE deliver at every level. The bridge deck's al fresco dining area (with teppanyaki) is designed for live-cooking nights spent under the stars and giving you the chance to make the most of every moment at sea.

On the lower deck, the beach club opens on three sides to create a dramatic waterside lounge. With a bar, dining area, a plethora of sofas, and most importantly direct access to the sea and water toys, this becomes the social heart of your yacht from first light swims to golden-hour cocktails.

Serious about acquiring an 85m with pedigree and a clear path to delivery? Enquire now for pricing, build milestones, and customisation options on PROJECT LIFE with Burgess.

Key features

Due for delivery in Spring 2030

85m (278.1ft)/2,680GT high-volume platform
