OVERVIEW.

Originally launched in 2000, the iconic 27.5m (90.2ft) Doggersbank explorer has been completely reimagined as SLOW POKE, a boutique superyacht that artfully blends timeless design with bold, contemporary character. Following an extensive multi-million dollar refit completed in 2021 by Safe Harbor Lauderdale Marine Center, SLOW POKE now stands as a one-of-a-kind pocket explorer built for adventure, comfort, and effortless elegance.

Designed by Vripack and constructed by Kuipers, SLOW POKE boasts a proven all-steel hull and aluminum superstructure. With a new 2.5-meter hull extension, CFD-optimised bulbous bow, and enhanced naval architecture, this refit delivers +2 knots of cruising speed and 10% improved fuel efficiency – making long-range voyages smoother and more sustainable.

Inside, SLOW POKE has accommodation for six guests in three beautifully appointed cabins. SLOW POKE offers the ambience of a chic, high-end residence – complete with bold colour palettes, cherry wood paneling, and luxurious retro finishes. From the glossy blues of the guest cabins to the Porsche-inspired tones in the master suite, every detail has been meticulously curated for a calming yet captivating on board experience.

The enlarged aft swim platform – with hydraulic steps, heated outdoor shower, and tender landing – provides direct and seamless access to the water. Whether you're launching watersports, enjoying a morning coffee on the aft deck, or soaking in the views from the flybridge, SLOW POKE delivers the ultimate indoor-outdoor lifestyle for serious explorers.

SLOW POKE offers the serenity and soul of a much larger vessel, with the intimacy and manoeuvrability of a true pocket explorer. Her current owner, a passionate yachtsman and pilot, calls her the perfect three-night escape – a seaworthy, soul-soothing retreat that's always ready to cruise.

SLOW POKE is powered by twin Caterpillar 3406C DI-TA engines boasting 300HP each allowing her to cruise at 10 knots and achieve a maximum speed of 11.5 knots.

Key features

Distinctive interior reimaged by Redd Kaihoi Design NYC

Comprehensive mechanical, structural and aesthetic refit

Custom swim platform extension with hydraulic steps

Bulbous bow addition designed by Vripack

Split level flybridge with bar and dining area
