VA BENE

APERÇU.

VA BENE is a highly capable Dutch-built motor yacht constructed by Kees Cornelissen to an exceptionally high specification. Commissioned by an experienced shipowner, her build placed particular emphasis on quality, reliability and redundancy, with premium systems and equipment installed throughout to ensure dependable operation and minimise disruption during extended cruising.

Benefitting from the same ownership and captain for the past 20 years, VA BENE presents in excellent condition following a thorough, proactive and preventative maintenance programme. Her long-term stewardship is evident throughout the yacht and provides a rare level of confidence for prospective owners seeking a proven and meticulously cared-for vessel.

Elegant and timeless in both her interior and exterior styling, VA BENE offers an impressive balance of comfort, versatility and functionality. Generous guest and crew areas, combined with thoughtful layout solutions throughout, create a yacht that is equally suited to private family cruising and successful charter operations.

A standout feature is her rare six-cabin accommodation arrangement. The layout includes a spacious full-beam VIP suite with en suite bathroom, while additional Pullman berths and a convertible owner's office adjoining the owner's suite provide exceptional flexibility for children, extended family and charter guests. This adaptable configuration allows VA BENE to accommodate a variety of guest groups while maintaining comfort across all cabins.

Over the course of her ownership, VA BENE has welcomed generations of family and friends, building a reputation as a comfortable, safe and dependable yacht. Combining robust Dutch engineering, proven charter credentials and outstanding accommodation, she represents a compelling opportunity in her size range.
